Polynucleotides

Polynucleotides are the freshest natural skin injectables making waves in the aesthetics world for the way they drastically improve skin quality!

"THE FRESHEST NATURAL REJUVENATION INJECTABLE"

Polynucleotides are derived from salmon and trout DNA, which closely resembles human DNA, so are ideal if you're seeking natural rejuvenation. They are also bio-stimulators, helping kickstart skin regeneration and are lauded as one of the best collagen and elastin boosting treatments!

We only bring the very best treatment brands at Dermoperfection, so for our Polynucleotide treatments, we offer the Plinest range from Mastelli Aesthetics; this includes Plinest for skin regeneration, Plinest Eye for improving periorcular skin texture and Plinest Hair for promoting healthy hair growth.

Benefits of Polynucleotides

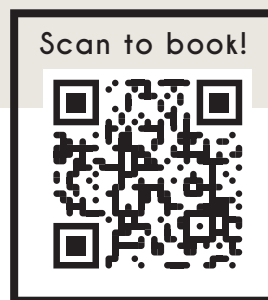

Polynucleotides are so popular as they can be used as both a preventative treatment for younger skin, and to tackle signs of ageing for older skin!

Polynucleotides also boost hydration and elasticity, reduce inflammation, strengthen delicate skin around the eyes and mouth, combat hyperpigmentation and melasma, tackle hair loss and give you overall glowing skin! You can enjoy this treatment on the face, neck, décolletage and for various areas across the body.

Alongside being an extremely effective standalone treatment, you may also choose Polynucleotides for "skin priming", preparing your skin and enhancing the effects of complementary aesthetic treatments!

Best of all, they come with no downtime and you will INSTANTLY see an improvement in skin quality, which then lasts for up to 9 months!

Polynucleotides	£
Polynucleotides Hair (Plinest)	£300
Polynucleotides Eyes (Plinest)	£300
Polynucleotides Full Face 4ml Skin Regeneration	£500
Polynucleotides Full Face Course of 4 Sessions of 4ml - Skin Regeneration	£1600

Hydrafacial Syndeo

"BETTER
SKIN
IN 3
STEPS."

The future of HydraFacial has arrived at Dermoperfection - meet HydraFacial Syndeo, the most innovative and advanced hydrafacial system EVER!

The HydraFacial uses patented technology to cleanse, extract and hydrate with super serums made from nourishing ingredients that restore your glow and create "the best skin of your life". The device used provides deeper penetration and longer lasting results in comparison to traditional facials!

At Dermoperfection, this is paired with the unique Syndeo to enhance your treatment even more; this cloud-based technology remembers your skin's story so you can enjoy ultimate personalisation with every session!

HydraFacials give instant and long-lasting results in treating a wide range of concerns, including fine lines and wrinkles, sagging skin, acne and oiliness, hyperpigmentation, dull and dehydrated skin, and more!

You can upgrade your HydraFacial treatment with the powerful wet diamond tip, to boost exfoliation further, similarly to microdermabrasion treatments, or with the Lip (to exfoliate, smooth and hydrate the lips) or Eye (to brighten, tone and firm the outer eye) perk add-ons in-clinic!

As well as HydraFacial face and body treatment, you can also enjoy a 'scalp detox' with Keravive! This treatment removes the scalp of dead skin cells, unclogs follicles and improves circulation, using patented Vortex technology, so you can enjoy regrowth and brighter, thicker hair.

Keravive is an amazing non-surgical solution to dandruff, dry or oily scalp, clogged hair follicles and thin hair!

Expect instant results from all of our HydraFacial and Keravive treatments, which then last for up to 6 weeks.

"LOVE THE RESULTS THE HYDRAFACIAL GAVE MY SKIN. INSTANT GLOW WHICH CARRIED ON DELIVERING RESULTS!"

- HARRIET

Microneedling

"MY SKIN LOOKS AMAZING AFTER MY MICRONEEDLING FACIAL."

- MALAIKA

Microneedling is a minimally invasive procedure involving the use of tiny, sterile needles, stimulating the wound healing process and thus collagen production; this makes it one of the most popular and versatile rejuvenation treatments!

At Dermoperfection, we have a diverse range of Microneedling options tailored to your skin concerns and goals!

SQT Bio Microneedling

A brand new microneedling revolution, exclusively in Birmingham at Dermoperfection! SQT Bio Microneedling uses advanced technology for heightened rejuvenation; the natural microneedles are derived from freshwater sponge, with no chemicals or acid involved! These needles are pushed into the dermis and epidermis, stimulating your skin for up to 72 hours after treatment before they fall out.

SQT Bio Microneedling has many benefits, including boosting collagen and elastin production, being the **ONLY** microneedling device to treat active acne, and to effectively treat fine lines and wrinkles, scarring, stretch marks, uneven skin texture, hyperpigmentation, skin laxity, melasma, open pores, sensitive skin and more!

**"THE ONLY
DEVICE OF
ITS KIND
TO TREAT
ACTIVE
ACNE."**

Mesoesthetic Microneedling

Mesoesthetic Microneedling has been in-demand at our clinic for many years, for the way it increases collagen production for younger looking skin, and creating microchannels to maximise the absorption of active ingredients.

There's 8 different Mesoesthetic c.prof solutions to tackle a wide range of concerns: depigmentation, photoageing, mesotox (for wrinkles), mesopeptide (for thin, ageing skin), draining (for cellulite and volume), body firming, skin mark (for stretch marks and blemishes) and hair loss.

INTRAcel Pro

"THE EVOLUTION OF FRACTIONAL RF MICRONEEDLING IS HERE."

Combining the power of microneedling with radiofrequency, INTRAcel Pro offers a radically enhanced effect in skin lifting, tightening and resurfacing!

The stimulation of collagen and elastin production during this treatment results in natural rejuvenation; plus, the thermal energy produced destroys the causes of acne, whilst repairing scarring and poor texture, with results lasting up to 2 years.

Dermoperfection is the exclusive provider of INTRAcel Pro in the West Midlands!

SQT Bio

"PRP IS SO POPULAR AS IT IS NATURAL AND SAFE, YOU ARE USING YOUR BODY'S OWN CELLS SO THERE IS NO CHANCE FOR A BAD REACTION - GENIUS."

- MARIE CLAIRE

Before & After

100% of the body's own substances

Stimulates the growth of hair

Treats uneven skin tone

Plumps sagging skin

"THE SKIN REJUVENATING TREATMENT CELEBRITIES SWEAR BY."
- VOGUE

PRP Rejuvenation

PRP is an exciting regenerative injectable treatment, extracting plasma from your own blood which is then injected into specific areas of the skin to stimulate collagen production, and produce highly effective results for a range of skin and hair concerns!

PRP isn't an entirely new concept, as it's been in development for many years, but has increased in popularity in recent years for its uses around rejuvenation and hair loss.

We use Arthrex PRP at Dermoperfection, for safe and quick preparation, and higher purity and superior quality of PRP. Patients love how this treatment uses 100% of the body's natural substances, that it's minimally invasive and comes with little to no downtime!

PRP for rejuvenation

Dubbed "the secret to younger-looking skin", PRP (also known as the "vampire facial") is the latest innovation in rejuvenation treatments, giving you tighter, fuller and a younger looking complexion. This is also highly effective in tackling wrinkles and sagging skin, diminishing acne scars, tackling hyperpigmentation and sun damage, and evening out skin tone.

PRP for hair

Patients seeking non-surgical alternatives to restore hair growth will love what PRP can achieve for them, helping those experiencing various types of hair loss, including androgenetic alopecia! The concentrated PRP is injected into the scalp, stimulating dormant follicles, prolonging the hair growth cycle and reducing hair shedding.

Within just a few months after treatment, you will see a real difference in hair density, thickness and quality! Results from PRP last up to 2 years, so you can anticipate long-lasting, life-changing effects.

"NON-SURGICAL HAIR LOSS TREATMENT."

**your
confidence**

**"EMFACE IS THE SKIN TREATMENT
EVERYONE'S TALKING ABOUT RIGHT NOW."**

- VOGUE

EMFACE®

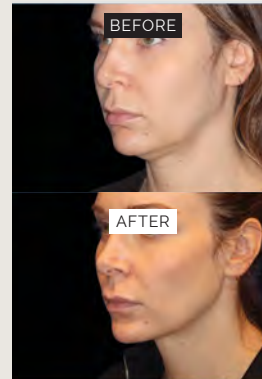

EMFACE is a world-first, state-of-the-art facial for lifting and tightening the face, and for boosting collagen production!

This utilises a patented combination of HIFES (high intensity facial electrical stimulation) and RF (radiofrequency) energy to firm the framework of your face and create transformative results without surgery.

EMFACE can even treat the more difficult facial areas that experience sagging, fine lines and wrinkles, loss of volume and other ageing signs, including the forehead, submentum (double chin), eyebrows, cheeks, jawline and more!

Immediate effects can be seen from EMFACE, which continue to improve over the following weeks post-treatment. These results then last up to a year!

"THE BRAND NEW PROCEDURE TO
REDUCE YOUR DOUBLE CHIN."

EMSELLA®

- ✓ No downtime
- ✓ Non-Invasive
- ✓ **STRONG PELVIC FLOOR!** 

EMSELLA®

"FOR MANY WOMEN, IT'S A GAME CHANGER:
OTHER PATIENTS AT DERMOPERFECTION
FOUND IT TO BE LIFE CHANGING."

- ERICA

Say goodbye to incontinence and hello to better sex with the revolutionary EMSELLA.

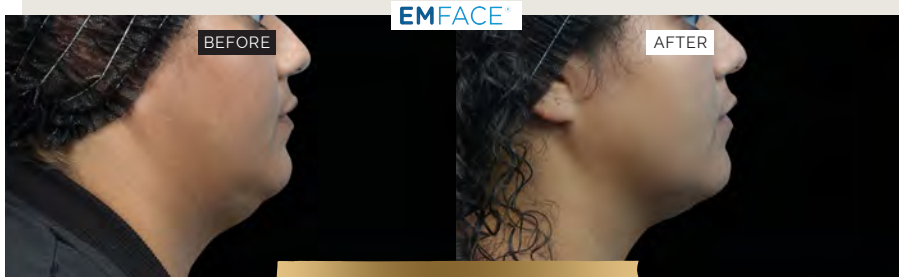

EMSELLA is a game-changer in non-invasive intimate health treatments - HIFEM (high intensity focused electromagnetic) energy is utilised to deliver thousands of supramaximal pelvic floor muscle contractions in a single session. This is equivalent to 11,000 kegel exercises!

This treatment is suitable for women and men, and reports show that 95% of patients report an improvement in quality of life after using this "wonder chair".

Following a course of EMSELLA sessions, you can expect an improvement in incontinence and sexual enjoyment to last for up to 12 months.

"30% REDUCTION IN FAT, 25% INCREASE IN MUSCLE THICKNESS."

"LESS WRINKLES, MORE LIFT."

ULTRAcel Q+

EXCLUSIVE
PROVIDER
IN THE WEST MIDLANDS

"THE WORLD'S FASTEST HIFU TREATMENT"

ULTRAcel Q+ is a state-of-the-art, non-surgical treatment for lifting and tightening the face AND body!

This treatment uses HIFU (high intensity focused ultrasound), creating results usually only seen with surgery! ULTRAcel Q+ is 3 times faster than other HIFU treatments, is painless and reaches the muscle layers other anti-ageing treatments cannot.

The HIFU energy also triggers collagen production to revitalise your skin, with effects lasting up to 2 years! You can enjoy this treatment on the forehead, brows, chin, jaw, neck, arms, legs, stomach and more, targeting fine lines, wrinkles, stubborn fat and more in these key areas.

Dermoperfection is exclusive provider of ULTRAcel Q+ in the West Midlands.

"THE TREATMENT WAS QUICK AND COMFORTABLE AND I COULD SEE RESULTS IMMEDIATELY FROM THE HIFU THOUGH FULL RESULTS WILL SHOW AFTER A FEW MONTHS."
- MARRIAM
